Intro: F E G C

F E G  
Sit down and listen  
                          F A G  
To the voice inside of your head  
F E G  
Every word you say  
                          F A G  
Makes the silence going mad  
                          F A G  
There are words in your mouth  
                          F E G  
Some are quiet some are loud  
                          F A G  
Not every word you say  
                          F E G  
Is supposed to stay

                          C\* G  
Heavy words are making  
                          E\* F\*  
An easy going so hard  
                          C G E F  
So sit down an listen once again
